

Partial Translation of JP 1972-32548

Publication Date: September 30, 1972

Application No.: 1969-52507

Filing Date: June 6, 1969

Applicant: MITSUBISHI MINING AND CEMENT CO LTD.

Inventor: Hajime KITAHARA

From line 20 to 24 of column 2, page 183.

When gates 5, 5A are classified by color or symbols or the like are given to the vicinity of the gates 5, 5A to clearly distinguish the unused side from the used side, it is convenient in use. Furthermore, the cylindrical body 1 is formed to be transparent or semi-transparent, the number of unused units can be confirmed by seeing through the inside of the body.
